CAPABILITY STATEMENT

Pistevo Decision

Explainable data and AI systems for government and industry.

Every answer points back to its source and the path in between, so the people who rely on them can validate.

SERVICES

Data and AI Engineering
Data platforms, analytics and AI whose answers show their source and the path in between.

Fraud, Waste and Abuse
Find improper payments and the policy behind them, with every flag explained.

AI Governance and Assurance
Inventory, risk tiers and evidence for every AI use case, ready for oversight.

Quantum Readiness
Plan the move to quantum-safe encryption, and find where quantum computing could really help.

PRODUCTS WE OWN

Veraxum
Answers that show their work.
Trust in what AI tells you

Carealth
Your health data, your call.
Trust in who controls your data

AI Governance Hub
AI you can account for.
Trust in how AI is run
